

TFY4285 (SIF 4078 & MNFFY362)

“Subatomær Fysikk”

Subatomic Physics 2004

Pensum: Selected parts from Kenneth S. Krane “*Introductory Nuclear Physics*” (Wiley&Sons, 1988). Students can, however, do without the book since complementary notes will be available: “**Notes on Subatomic Physics**” and (obligatory) “**Selected Exercises on Subatomic Physics**”.

**The course starts with an introductory meeting
Tuesday 6 January 2004, 12.15-14.00, F4 – see you there!**

Interested participants can contact the lecturer, Professor **Bo-Sture Skagerstam**, for more information (email: Bo-Sture.Skagerstam@phys.ntnu.no).
